

Seven Habits of Culturally Competent Asset Builders

1. Name and honor your own cultural heritage.
2. Embrace and honor the diversity of others.
3. Connect assets and culture often.
4. Speak of your own asset-building efforts through a cultural lens.
5. Include diverse perspectives in conversations that silently assume that one size fits all.
6. Be ready to learn by challenging one's own assumptions about other people.
7. Reflect on the journey.
