

Yuba Gardens Middle School

Grade 7

First Place

You are on your way to school and you see an older person picking on a student. Some people believe that in order to feel good about themselves, they have to put others down. Bullying, teasing, name calling are all examples of this that we experience and all this needs to stop!

Most bullies think they have the power. That they have all that someone's got in them just cause they pick on people. Those bullies think it doesn't hurt them, that they'll get over it. Well they are so wrong because those students that get picked on feel bad, hurt. They feel like they've been scarred for life.

This behavior that is happening just ends up hurting the bully as much as the person who is being bullied. They don't know what they are going to feel after they finish picking on someone. They think they are going to feel like they are the ones who rule this world. Well they're not; they will feel bad after what they did because maybe they'll think back and remember that what they did happened to them. Treating others with kindness and respect is for their own benefit and the benefits of others. See if you treat others with kindness, respect, like someone special, they'll return all that to you, and you too will feel like someone special. The only way you can get along with someone is by being that good person. Now that will make you feel so good.

Most students are afraid to even walk out their door to go to school cause they know that a bully is waiting for him/her. They already know what is going to happen because it happens to them every day. Those teasing bullies are satisfied of their work, but not to those who get hurt.

Bullies don't know the importance of being a good person. They think that what they do is some kind of hobby everyone's doing these days. Although that's not true. One of these

days those bullies will be picked on by other bullies. Soon they'll know how it feels getting picked on.

Elementary and middle schools are all wanting everyone to get along. They don't want any bullies in their school picking on others. They know the right thing the schools need to do is show them how to respect others so they can get some equal respect too.
