TO: Potential Bidders Who Submitted a Notice of Intent to Bid in Relation to *Request for Proposals: California Teacher Recruitment Program*

FROM: Bob Carlson
Director, Center for Student Assessment and Program Accountability

SUBJECT: Questions and Answers

As indicated on page i of the aforementioned Request for Proposals (RFP), the Sacramento County Office of Education (SCOE) welcomes written questions about the RFP or the anticipated contract. Questions may be submitted anytime through June 5, 2006 (5:00 p.m.). Within four business days of the receipt of any written questions, SCOE staff will distribute to all who have submitted a Notice of Intent to Bid the questions and SCOE's responses. All potential bidders who submit a Notice of Intent to Bid will receive all questions and responses regardless of when the notice is submitted.

Below are six questions that have been submitted and our responses.

- 1. The RFP (p. 11) specifies that one of the three areas focused on must be primarily rural. Is region as used in the RFP intended to mean the 11 K-12 education regions of California, or does it have a more generic meaning?***

The term "region" is not used in the RFP. The term "area" used in the RFP is not intended to mean the 11 education regions of California as defined by California County Superintendents Educational Services Association (CCSESA).

- 2. What is the definition of primarily rural for the purposes of this Program? If area conforms with the K-12 regions in the State, which are defined as being primarily rural?***

The National Center for Education Statistics (NCES) categorizes each district and school by locale, which identifies the geographic status of a district/school on an urban continuum ranging from "large city" to "rural" based on its physical address. Bidders are to define three geographic areas in California where they propose to focus their efforts. One area

must be primarily rural; that is, the majority of the school districts in the area must be classified as rural (i.e., locale code 7 or 8) by NCES. Attached is an Excel document, created at the NCES Web site, that lists, by county, all 403 districts in California with locale code 7 or 8. You may wish to generate your own reports to help you define your primarily rural area. You can do so at: <http://nces.ed.gov/ccd/bat/>

3. ***The RFP (pp. 3-4) gives the number of 1-3 decile schools by county. The three counties with the largest number of schools in these deciles are Los Angeles, San Bernardino, and Fresno. Is it possible to serve these three counties, or does the requirement for one primarily rural area preclude this?***

Please see the response to question 2.

4. ***The RFP (p. 12) refers to identifying and providing recruitment incentives. Can California Teacher Recruitment Program funds be used in part for recruitment incentives? What types of recruitment incentives can be provided from Program funding?***

California Teacher Recruitment Program funds can be used in part for recruitment incentives. If bidders wish to use funds for recruitment incentives, in their proposal they should (a) describe how the funds would be used for this purpose and how much would be used, (b) verify that the use of funds in these ways would be legal (e.g., avoid prohibitions of gifts of public funds), and (c) address how the use of funds for incentives would contribute to the building of recruitment structures and processes that will sustain beyond the funding for this contract (a program requirement).

5. ***Can some level of services be provided in areas beyond the three identified for focus (a) during the period of the grant or (b) subsequent to the grant period, with some planning for this during the ending period of the grant?***

(a) During the period of the grant, the contractor will be required to focus its efforts on the three selected geographic areas. This means that program activities and funds are to be used to recruit teachers in those areas. If, incidental to those efforts, teachers are recruited to decile 1-3 schools in other areas, that would be fine.

(b) One of the program requirements is to build recruitment structures and processes in the three selected geographic areas that will sustain in those areas beyond the funding for this contract. Thus, planning for sustainability should be part of the contractor's work. Subsequent to the grant period, the contractor may, using its own resources, continue to provide teacher recruitment services anywhere it likes.

6. ***In selecting districts to serve in deciles 1-3, should we use the 2004 API base as in the RFP, or may we use the 2005 API base?***

The grant requires recruitment of teachers to California schools in deciles 1-3, inclusive, based on the 2004 Academic Performance Index base.

Rural Districts in California by County
