2nd Grade, Room 10

Insufficient number of instructional materials as evidenced by the following deficiencies:

<u>Subject Area</u>	<u>Title</u>	<u>Students Without</u>
ELA	Houghton Mifflin Little Books	1 set
HSS	Scott-Foresman <i>Then and Now</i>	20
Science	McGraw-Hill Student Book	20
OR		
Science	FOSS Science Kit	

2nd Grade, Room 10

Insufficient number of instructional materials as evidenced by the following deficiencies:

<u>Subject Area</u>	<u>Title</u>	<u>Students Without</u>
ELA	Houghton Mifflin Little Books	1 set
HSS	Scott-Foresman <i>Then and Now</i>	20
Science	McGraw-Hill Student Book	20
OR		
Science	FOSS Science Kit	

3rd Grade, Room 16

Insufficient number of instructional materials as evidenced by the following deficiencies:

<u>Subject Area</u>	<u>Title</u>	<u>Students Without</u>
HSS	Scott-Foresman <i>Our Community</i>	16

4th Grade, Room 27

Insufficient number of instructional materials as evidenced by the following deficiencies:

<u>Subject Area</u>	<u>Title</u>	<u>Students Without</u>
Science	McGraw-Hill Student Book (2001)	3
OR		
Science	McGraw-Hill Student Book (2007)	21

5th Grade, Room 22

Insufficient number of instructional materials as evidenced by the following deficiencies:

<u>Subject area</u>	<u>Title</u>	<u>Students Without</u>
HSS	Scott-Foresman <i>Our Nation</i>	3

6th Grade, Room 31

Insufficient number of instructional materials as evidenced by the following deficiencies:

<u>Subject Area</u>	<u>Title</u>	<u>Students Without</u>
Science	McGraw-Hill Student Book	23

SDC, Room 25

Insufficient number of instructional materials as evidenced by the following deficiencies in K-3 grade levels:

<u>Subject Area</u>	<u>Title</u>	<u>Students Without</u>
ELA	Language for Learning	Maximum 14
ELA	Decoding "A"	Maximum 14
Science	McGraw-Hill Student Book (1-3)	14

We understand that many of these materials (e.g., the McGraw Hill Science texts and Pearson-Scott Foresman History/Social Science texts) have been ordered but not received.

We also understand that the district has contacted the publishers of the materials in order to expedite the delivery. Unfortunately, the absence of these materials means that the adopted course of study is not being offered to all students at Del Paso Heights Elementary School.¹

The *Education Code* provides school districts the opportunity to remedy deficiencies found during the Williams review. The county superintendent is responsible to ensure that any deficiency is remedied within the first eight weeks of the school term.² If, however, the plan to remedy the insufficiency is not implemented, the county superintendent is required to request that the Superintendent of Public Instruction purchase the needed textbooks for the school with the purchase treated as a loan to the district.

¹ *Education Code* Section 51210 describes the adopted course of study for grades 1-6. *Education Code* Section 1240(h) requires the county superintendent of schools to enforce the course of study. Mathematics, science, and social sciences are required courses of study for grades 1-6, including classes designated for learning handicapped.

² *Education Code* Section 1240(i)(4)(C) requires remediation of a deficiency no later than the second month of the school term.
