

Natomas High School
(Natomas Unified School District)

2007-08 Textbook Insufficiency Report

Our reviewers determined the following insufficiencies *(listed on the attached Excel spreadsheet)*:

Primarily, based on the age of the materials found in this classroom, we believe the textbooks noted on the attached spreadsheet are not consistent with content and cycle of the state curriculum frameworks and state board adopted content standards.¹ We understand that Natomas Unified School District staff are developing standards maps and/or purchasing newer materials to demonstrate that the materials being used are aligned to the content and cycle of the state curriculum frameworks and state board adopted content standards. We look forward to receiving those documents as soon as possible.

The *Education Code* provides school districts the opportunity to remedy deficiencies found during the Williams review. The county superintendent is responsible to ensure that any deficiency is remedied within the first eight weeks of the school term.² If, however, the plan to remedy the insufficiency is not implemented, the county superintendent is required to request that the SPI purchase the needed textbooks for the school with the purchase treated as a loan to the district.

¹ The most recent State Curriculum Frameworks adoption dates are as follows: [Foreign Language Framework](#) – 2003, [History-Social Science Framework](#) – 2005, [Mathematics Framework](#) – 2005, , [Reading/Language Arts Framework](#) – 2007, [Science Framework](#) - 2004

² *Education Code* Section 1240(i)(4)(C) requires remediation of a deficiency no later than the second month of the school term.
